Vendor:SAP

Exam Code:C_HANATEC141

Exam Name:SAP Certified Technology Associate (Edition 2014) - SAP HANA

Version: Demo

QUESTION 1

You are investigating a problem with the SAP HANA database. You opened a customer message with SAP support. SAP support asks you to provide diagnostic information from the SAP HANA instance.

How can you gather this information? (Choose two)

A. Select and download all files under Diagnosis Files in the SAP HANA studio

B. Run the HDB info command on the SAP HANA server as adm

C. Run the fullSystemInfoDump.py script on the SAP HANA server as adm

D. Execute Diagnosis Files -> Diagnosis Information -> Collect function in the SAP HANA studio

Correct Answer: CD

QUESTION 2

Application users report that a query sometimes runs much slower than usual. You suspect that high system load is causing the slower query execution.

Which of the following can you use to review overall system resource utilization at the time of query execution?

A. SAP HANA Studio Administration Console->Performance LOAD

B. DBA Cockpit (DBACOCKPIT) Current Status Alerts

C. DBA Cockpit (DBACOCKPIT) Performance Expensive Statements

D. SAP HANA Studio System Monitor Sessions

Correct Answer: A

QUESTION 3

You are replicating data in real-time from a source system to SAP HANA using System Landscape Transformation (SLT). The source system had to be restored using a point-in-time recovery to an earlier point in time. The systems are now out of sync.

How can you synchronize the systems again?

A. Select "Suspend" and "Resume" in the Data Provisioning dialog

B. Run the hdbnsutil program on the command line

C. Restart the master job using transaction LTR in the SLT system

D. Select "Stop Replication" and "Replicate" in the Data Provisioning dialog

Correct Answer: D

QUESTION 4

You deleted billions of records from several tables in the SAP HANA database. However, the file system for the data volumes did not gain any free space.

What is the reason?

A. You did not execute a full backup and restore to reduce the size of the data volumes.

B. You did not execute the ALTER SYSTEM RECLAIM LOG.

C. SAP HANA keeps the space for later reuse.

D. SAP HANA did not trigger a delta merge yet.

Correct Answer: C

QUESTION 5

Which Linux kernel parameters need to be adapted during SAP HANA installation depending on the SAP HANA system size?

A. net.ipv4.tcp_slow_start_after_idle and kernel.shmmni

B. kernel.shmall and fs.file-max

C. fs.file-max and net.core.wmem_max

D. net.core_rmem_max and kernel.sysrq

Correct Answer: A

QUESTION 6

Which of the following prerequisites must be met before you can install the SAP HANA studio on a Linux operating system? (Choose two)

A. The Java runtime is accessible via the PATH or JAVA_HOME variable.

B. You are logged on as the adm user.

C. You are logged on as the root user.

D. The installation directory has at least 10 GB of free space.

Correct Answer: AC

QUESTION 7

Which of the following must you implement for high availability in an SAP HANA production system? (Choose three)

A. A name server on one active node

B. Index server processes on all nodes

C. Shared file system for all nodes

D. Data replication to the standby nodes

E. A statistics server on one active node

Correct Answer: BCE

QUESTION 8

Which of the following traces is active by default in SAP HANA?

A. SQL trace

B. Performance trace

C. Database trace

D. Expensive statements trace

Correct Answer: C

QUESTION 9

In the SAP HANA studio, where can you check the throughput performance of SAP HANA backups?

A. Administration Console Diagnosis files Backup.log

B. Backup Editor Backup Catalog Backup Details

C. System Information Database Information

D. Administration Console Performance Job Progress

Correct Answer: B

QUESTION 10

Which of the following can you use to update SAP HANA (SPS06)?

A. SAP HANA lifecycle manager

B. SAP HANA update wizard

C. SAP HANA on-site configuration tool

D. Software update manager (SUM) for SAP HANA

Correct Answer: A

QUESTION 11

Which of the following template roles allows a user who has been assigned this role to grant the privileges of this role to other users?

A. CONTENT_ADMIN

B. MODELING

C. PUBLIC

D. MONITORING

Correct Answer: A

QUESTION 12
