Answer: D

QUESTION NO: 12

Identify the feature of WebLogic JMS: If the message destination (5, not available at the moment the sages are being sent, either because of network problems or system failures, then the messages are saved on a local server instance, and are forwarded to the remote destination once it becomes available.

A. Unit of Work
B. Store-and-Forward
C. Unit of Order
D. Distributed Destinations

Answer: B

QUESTION NO: 13

In Real Operations Insight, metrics are sent from the various WebLogic Suite components into Enterprise Manager for _____ and_____.

A. Optimization
B. Visualization
C. Automation
D. Customization

Answer: A,C

QUESTION NO: 14

When scaling Coherence from one to two cache servers, it will not show the same scalability as two to four. Why?

A. Coherence uses a more efficient TCMP algorithm going from two to four cache servers.
B. When going from one to two cache servers, object backups are copied across servers so work is doubled, but going from two to four is a fixed amount of work.
C. Near cache is enabled with a larger quorum thus performance is improved.
D. All of the above.

Answer: B

QUESTION NO: 15

This is a special WebLogic Server instance included by the WebLogic Server Domains. It represents a central point from which you configure and manage all resources in the domain.

A. Managed Server
B. Web Server
C. Administration Server
D. Node Server

Answer: C

QUESTION NO: 16

You are an Enterprise Architect in a large IT organization. Your organization has deployed applications on a variety of containers such as WLS, WebSphere, and JBoss.

Why would you consider consolidating on a single type of container (instead of a mix)?

A. Guarantee of higher application performance and reliability if the transactions are flowing between instances of the same container type.
B. Easier to build a Shared Services infrastructure that can provide best practices, tools and expertise around HA/Management... with a single type of container than a mix of multiple types.
C. You'll save on hardware costs with a homogeneous environment.
D. It's a necessary step in our move toward adopting SOA.

Answer: B

QUESTION NO: 17

Which two statements are true when a Coherence cluster member is lost?
