- C. the Virtual Tape Library Unlimited Drive Option
- D. the NDMP Option

Correct Answer: A

---

**QUESTION 3**

In which two file formats can Symantec Backup Exec 2014 reports be generated? (Select two.)

- A. DOC
- B. TXT
- C. HTML
- D. PDF
- E. RTF

Correct Answer: CD

---

**QUESTION 4**

Which two steps must an administrator perform after running an Inventory and Catalog job to perform a data restore within Symantec Backup Exec 2014? (Select two.)

- A. ensure the date range of the sets are correct and proper selections are made
- B. ensure an encryption key is created to restore the data
- C. ensure that the backup server is selected as part of the restore job
- D. ensure a new logon account is created that is used to run the restore
- E. ensure backup sets are displayed and remaining restore or redirection options are selected

Correct Answer: AE

---

#### **QUESTION 5**

An administrator is using Symantec Backup Exec 2014 to protect an Exchange server. The administrator must be able to recover individual application objects, such as emails and attachments. The administrator would like the process of granular recovery to happen as quickly as possible.

Which best practice should the administrator follow when configuring the backup definition for the Exchange server?

- A. manually stop all Exchange services before backup using scripts
- B. use the VSS Full backup method when configuring backup properties
- C. run the Granular Restore Option (GRO)
- D. store the Exchange server backup sets to disk storage

Correct Answer: D

---

#### **QUESTION 6**

What is the oldest version of Symantec Backup Exec that can be upgraded using the Symantec Backup Exec 2014 installation media?

- A. Symantec Backup Exec 11d
- B. Symantec Backup Exec 12.5
- C. Symantec Backup Exec 2010
- D. Symantec Backup Exec 2012

Correct Answer: B

---

#### **QUESTION 7**

Symantec Backup Exec 2014 allows administrators to make copies of deduplicated backup sets and transfer them to a different Backup Exec 2014 server. The transfer process is optimized, meaning only unique blocks (those not already contained in the deduplication disk storage device of the destination server) are copied.

What is the proper name of this ability?

- A. optimized deduplication
- B. optimized replication
- C. optimized duplication
- D. optimized synchronization

Correct Answer: C

---

### QUESTION 8

An administrator selects two backup sets, one of file data and one of a SQL database, and clicks Restore. The administrator completes the Restore Wizard for the file data selection, but clicks Cancel on the Restore Summary screen for the SQL database.

What happens to both restore jobs?

- A. both restore jobs are discarded
- B. both restore jobs are submitted successfully
- C. the first restore job is submitted and the second restore job is discarded
- D. the first restore job is discarded and the second restore job is submitted

Correct Answer: C

---
