Vendor: Microsoft

Exam Code:98-368

Exam Name: Mobility and Devices Fundamentals

Version: Demo

QUESTION 1

This question requires that you evaluate the underlined text to determine if it is correct.

"The Windows Store" allows users of Windows 8 and Windows 8.1 computers to view and install applications that the users\\' administrators make available to them. The computers must be attached to the domain, and the user must be logged

in with domain credentials.

Instructions: Review the underlined text. If it makes the statement correct, select "No change is needed". If the statement is incorrect, select the answer choice than makes the statement correct.

A. No change is needed

B. Microsoft SharePoint

C. The Microsoft Intune Company Portal App

D. The System Center Configuration Manager Company Portal App

Correct Answer: D

The System Center Configuration Manager Company Portal app allows users of Windows 8, Windows 8.1 and Windows 10 machines to view and install applications made available to the user by their administrators. The machine must be managed by Microsoft System Center 2012 R2 Configuration Manager, or later, with the agent installed.

End User Machines requirements:

*

 Windows 8 Pro, Windows 8 Enterprise, Windows 8.1 Pro, Windows 8.1 Enterprise, Windows 10 Pro or Windows 10 Enterprise

*

 Machine must be domain-joined

*

 User must be logged on with domain credentials

*

 System Center 2012 R2 Configuration Manager (or later) client agent must be installed

QUESTION 2

You perform a bare metal installation of Microsoft Windows 10 Enterprise on a new computer. The computer has a single 1 TB hard disk that you configure as a single partition. Which file system should you use to format the disk

partition?

A. NTFS

B. ReFS

C. FAT32

D. exFAT

Correct Answer: A

QUESTION 3

This question requires that you evaluate the underlined text to determine if it is correct.

You have a Windows 10 computer that is part of a workgroup. To share the C:\Work folder from the computer and make it available to offline users, you need to use the public share option.

Review the underlined text, if it makes the statement correct, select "No change is needed". If the statement is incorrect, select the answer choice than makes the statement correct.

A. No change is needed

B. advanced

C. HomeGroup

D. basic

Correct Answer: B

References: https://www.digitalcitizen.life/how-customize-your-advanced-network-sharing-settings-windows-81

QUESTION 4

This question requires that you evaluate the underlined text to determine if it is correct.

Windows Server Active Directory enables single sign-on without the need for additional services, which simplifies user access to thousands of cloud applications on Windows, Mac, and iOS devices.

Review the underlined text, if it makes the statement correct, select "No change is needed". If the statement is incorrect, select the answer choice than makes the statement correct.

A. No change is needed

B. Microsoft Account

C. Active Directory Federation Services

D. Azure Active Directory

Correct Answer: D

Azure Active Directory is a comprehensive identity and access management cloud solution that provides a robust set of capabilities to manage users and groups. Azure Active Directory enables single sign-on to simplify user access to thousands of cloud applications from Windows, Mac, Android and iOS devices.

QUESTION 5

What is an example of the way in which a Trojan horse commonly spreads to other computers?

A. It inserts copies of itself into other computer programs

B. It traverses a network by exploiting a vulnerability

C. It pretends to be a document from a friend

D. It downloads from an infected web page

Correct Answer: D

Trojan horses are commonly found on websites that offer free software, such as shareware programs. These communal gathering spots on the Web give Trojan horse writers a degree of anonymity along with the chance of attacking as many random victims as possible. Since website operators rarely have time to thoroughly examine every file posted, an occasional Trojan horse can slip through the checking procedures unnoticed.

QUESTION 6

This question requires that you evaluate the underlined text to determine if it is correct.

You manage Windows 8.1 desktop and laptop computers in your university\\'s computer lab.

The university\\'s IT team recently implemented an active directory environment.

You need to join the desktop and laptop computers to a new Active Directory domain.

You should use the "Network and Internet" Control Panel applet to achieve this goal.

Instructions: Review the underlined text. If it makes the statement correct, select "No change is needed". If the statement is incorrect, select the answer choice than makes the statement correct.

A. No change is needed

B. User Accounts

C. Administrative Tools

D. System

Correct Answer: D

Join a domain, workgroup, or homegroup

1.

 Open System by swiping in from the right edge of the screen, tapping Search (or if you\'re using a mouse, pointing to the upper-right corner of the screen, moving the mouse pointer down, and then clicking Search), entering System in the search box, and tapping or clicking System.

2.

 Under Computer name, domain, and workgroup settings, click Change settings. You might be asked for an admin password or to confirm your choice.

3.

 Click Network ID and follow the steps on your screen.

QUESTION 7

Your network is configured as an Active Directory Domain Services (AD DS) domain. The company has an Azure AD premium subscription. You need to configure file access and storage to meet the following requirements: Users can access files from any location with any managed devices without connecting to the corporate network.

Users can access local copies of files when they are not connected to the Internet.

Files will sync automatically when connected to the Internet.

What should you configure?

A. Work Folders

B. Offline folders

C. Company Portal

D. RemoteApp

Correct Answer: A

References: https://docs.microsoft.com/en-us/windows-server/storage/work-folders/work-folders-overview

---

QUESTION 8

This question requires that you evaluate the underlined text to determine if it is correct.

If you need to make storage space available for an update on a Windows Phone 8.1 device, you should use "Action Center" to move installed programs to and other data from the phone to the SD card. Instructions: Review the underlined text.

If it makes the statement correct, select "No change is needed". If the statement is incorrect, select the answer choice than makes the statement correct.

A. No change is needed

B. File Explorer

C. Phone Update

D. Storage Sense

Correct Answer: D

To uninstall apps and games or move them to an SD card using Storage Sense

You can uninstall apps and games to free up space on your phone, or move them to an SD card (if you have one installed).

1.

 In the App list, go to Storage Sense Storage Sense Tile.

2.

 Go to Phone > Apps+games.

3.

 Tap an app or game file, and then tap Uninstall or Move to SD.

QUESTION 9

Which two Windows 10 tools can be used to perform BitLocker encryption? (Choose two.)

A. Manage-bde

B. Disk Management

C. Microsoft Management Console

D. BitLocker control panel

Correct Answer: AD

References: https://docs.microsoft.com/en-us/windows/security/information-protection/bitlocker/bitlocker-basic-deployment

QUESTION 10

You are a desktop support engineer for an advertising company that uses Windows 8.1 workstations.

An employee who manages video content for the company website recently lost important video files due to a single-drive failure on a Windows 8.1 workstation. You need to prevent a single-drive failure from occurring again on this

employee\\'s workstation, which only has a capacity for three physical hard drivers. Additionally, the employee requires optimal performance when manipulating and streaming video files.

Which Storage Space solution should you implement?

A. three-way mirror

B. parity spaces

C. simple spaces

D. two-way mirror

Correct Answer: B

Parity spaces (also known as RAID-5) are designed for storage efficiency and protect your files from drive failure by keeping more than one copy. Parity spaces are best for archival data and streaming media, like music and videos. This storage layout requires at least three drives to protect you from a single drive failure and at least seven drives to protect you from two drive failures.

QUESTION 11

You need to create an Azure storage account through Azure Storage Services to support an Azure Windows virtual machine (VM). You want to keep subscription costs to a minimum. What type of storage account should you create?

A. Standard storage performance tier

B. Blob cool access tier

C. Premium storage performance tier

D. Blob hot access tier

Correct Answer: D

QUESTION 12

Match each Microsoft cloud service to the feature it provides.

Instructions: To answer, drag the appropriate Microsoft cloud service from the column of the left to its feature on the right. Each service may be used once, more than once, or not at all. Each correct match is worth one point.

Select and Place:

Microsoft cloud service	Answer Area
SharePoint Online	virtual machines
Microsoft Azure	video calls
Lync Online document	library

Correct Answer:

Microsoft cloud service	Answer Area
	virtual machines	Microsoft Azure
	video calls	Lync Online document
	library	SharePoint Online

*

Microsoft Azure Virtual Machines allow you to deploy a wide range of computing solutions in an agile way. With Virtual Machines, you can deploy nearly instantaneously and you pay only by the minute.

*

Present a document online using Lync

If you have Lync installed, you can present a document in an online conversation or meeting, work with other people on it in real time, and even let someone else take control of it.

*

A library is a collection of files. In SharePoint, a library is a type of list. Each file is a content item.

Libraries have extra features, such as synchronisation, viewing/editing, or managing files.
