Title : Adobe ColdFusion 8 ACE
Exam

Version : DEMO

1. You have a ColdFusion Component with a function that returns the total number of arguments passed into this function. You want to expose this function as a Web service. Which tags and attributes should you use?

- A. The tag with the `invokeargument` attribute.
- B. The tag with the `name` and `component` attributes.
- C. The tag with the `component` and `method` attributes.
- D. The tag with the `returntype` and `access` attributes.

Answer: D

2. You create an RSS feed by using the following code: `<do you should What attribute. query="orderSelections#" the by specified object a in rows as entries and structure metadata put to need You outputFile="eeds/createOrderSel.xml" columnMap="colMapStructure#" action="reate">`

- A. Add the `name` attribute.
- B. Delete the `columnMap` attribute.
- C. Change the `outputFile` path.
- D. Add a `properties` attribute.

Answer: D

3. You write the following code to consume a Web service. However, the code is not working. What should you do to correct this code?

- A. Use `boolean` as the `returnvariable`.
- B. Use the `webservice` attribute instead of the `component` attribute.
- C. Use the `tag` instead of the `tag`.
- D. Use a different method name.

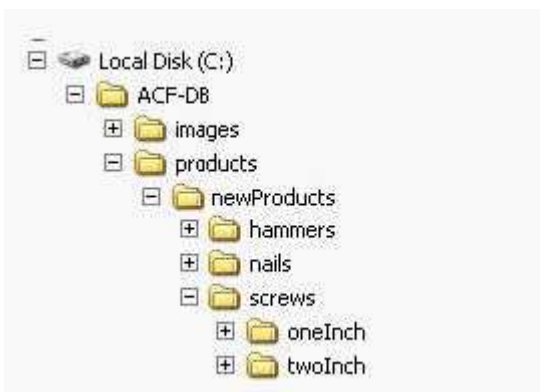

Answer: B

4. You have a Web page that you want to display in a PDF document format. Which tag should you use?

- A. The `tag`.
- B. The `<` tag.
- C. The `tag`.
- D. The tag with the `tag`.

Answer: B

5. You are using a file structure as shown in the Exhibit.

- A. The ACF-DB folder.
- B. The oneInch folder.
- C. The root of the hard drive.
- D. The screws folder.

Answer:C

6.You write code that changes a value in the application scope. You are using the tag to prevent race conditions and do not want to lock the entire application scope. What should you do?

- A.Use the name attribute.
- B.Use the type attribute.
- C.Use the timeout attribute.
- D.Use the output attribute.

Answer:A

7.You are using four scopes within a pageRL, Variables, Form, and CGI. Which of these four scopes is checked first by ColdFusion?

- A.URL
- B.Variables
- C.Form
- D.CGI

Answer:B

8.You want to use session variables in an application. You have a single Application.cfm file that you use in the application. You have enabled session management in the ColdFusion Administrator. What should you do to enable session variables within your application?

- A.Use the tag with sessionManagement=true.
- B.Use the tag with the This scope.
- C.Use the tag with the Session scope.
- D.Use the tag in the onApplicationStart() method.

Answer:A

9.You use the tag in an application named orderSupplies. You receive an error when this code is executed. What is causing this error?

- A.The application scope with the exclusive attribute.
- B.The units for the timeout attribute.
- C.The use of name and scope in the tag.
- D.The use of dot syntax in the name attribute.

Answer:C

10.You want to keep track of the number of visitors on your Web site at any given time. Which variable scope allows you to do this?

- A.The session scope.
- B.The request scope.
- C.The application scope.
- D.The cookie scope.

Answer:C

11.Which statement about the following code is true? 1) 2) 3) 4)c = 10 5) 6)d=15 7)

- A.The left and right sides of the OR are evaluated and both must be true in order for variable c to be assigned.
- B.Variable c will be assigned with a value of 10.
- C.Variable d will be assigned with a value of 15.
- D.An error will occur.

Answer:D

12. You create the following user-defined function. You execute the code, but it does NOT work properly. 1) 2) 3) 4) 5) Select * 6) From Tours 7) 8) Where tourID = #arguments.tourID# 9) 10) 11) Why is your function not working?

A. The function name is NOT unique. B. You CANNOT use inside a function. C. The tag does NOT have a type attribute. D. You do NOT have a tag.

Answer: D

13. What should you do in the following code to create a loop that outputs only even numbers between 2 and 100? 1) Number: ## 3)

A. Add a step attribute of 2 in the opening tag.
B. Add a conditional statement.
C. Replace the i in the index attribute with i + 2.
D. Use the Query loop with the tag.

Answer: A

14. You write a user-defined function that contains the following code. 1) < this run happens variable="Message" 4) file="c:\web\message.txt" 3) charset="EUC-KR">

A. A file named message.txt is created with the read permissions. B. The file named message.txt is converted to binary object in memory.
C. The EUC-KR charset is applied to the file and output is sent to Message variable.
D. The character encoding is set to Message.

Answer: C

15. Which ColdFusion built-in function can invoke a component method in the same line of code that instantiates the component?

A. Int()
B. CreateUUID()
C. CreateObject()
D. IsInstanceOf()

Answer: C

16. You declare some variables within a ColdFusion Component (CFC) directly below the tag by using the THIS scope. How long does a variable exist in the THIS scope?

A. For the life of the page request.
B. Until one of the functions on the page is called.
C. Until a function call is completed from the page that invoked the CFC.
D. For the life of the component instance.

Answer: D

17. What are the three thread scopes that each thread contains when using the tag?

A. The Local, This, and Session scopes.
B. The Caller, Thread, and Attributes scopes. C. The Application, Thread, and Caller scopes. D. The thread-local, Thread, and Attributes scopes.

Answer: D

18. You use the tag to display the results of the cache for a particular page. You find the results are not stored regularly. Which attribute should you use with the tag to control how long the results are stored?

- A.Add the timeout attribute.
- B.Add the action attribute.
- C.Add the expireurl attribute.
- D.Add the timespan attribute.

Answer:D

19.You are caching queries in your application. You find that NOT all queries are being cached. What should you do?

- A.Add the cachedwithin attribute to the tag.
- B.Use the tag.
- C.Use the tag.
- D.Raise the number on the caching page in the ColdFusion Administrator.

Answer:D
