Vendor: Blue Coat

Exam Code:BCCPP

Exam Name: Blue Coat Certified Proxy Professional

Version: Demo

QUESTION 1

When performing anti-virus scanning using Blue Coat appliances, how does the ProxySG determine what specific actions to perform for high-performance or maximum-security deployments?

A. In the Configuration > Threat Protection settings of the Management Console.

B. By reading the Threat Protection policy file.

C. By querying the configuration of the anti-virus scanning appliance.

Correct Answer: A

QUESTION 2

By default, are proxy transactions allowed or denied?

A. Yes

B. No

C. The answer depends on the default proxy policy setting.

Correct Answer: B

QUESTION 3

Which of the following statements are true about dynamic bypass list? (Choose all that apply)

(a)

Configured polices will not be enforced on client request if the request matches an entry in the bypass list.

(b)

Dynamic bypass entries are lost when ProxySG is restarted

(c)

If request made to a site in a forwarding policy is in the bypass list, the site is inaccessible

(d)

Dynamic bypass parameters can be configured on Management Console and CLI.

A.

All of the above

B.

a, b and c only

C.

b, c and d only

D.

a, c and d only

Correct Answer: B

QUESTION 4

By default, how often is the standard SSL trust package updated?

A. Once every hour.

B. Once every day.

C. Once every seven days.

D. Once every 30 days.

Correct Answer: C

QUESTION 5

url.regex=!\.html$ d\ DENY

What is the effect of the above CPL code?

A. Deny any URL that ends with html

B. Deny any URL that does not end with html

C. Deny any URL that ends with htm or html

D. Deny any URL that does not end with htm or html

Correct Answer: B

QUESTION 6

Is it must the ProxySG use BCAAA to perform user authentication to an IWA realm?

A. Yes.

B. No.

C. It depends on whether that realm has been configured on the ProxySG to be an IWA Direct realm or a BCAAA realm.

Correct Answer: A

QUESTION 7

Objects that require more server-side bandwidth and response time are less likely to be deleted from the cache. This statement best describes which ProxySG caching technique?

A. Popularity content

B. Pipelining

C. Cost-based deletion

D. Asynchronous adaptive refresh

Correct Answer: D

QUESTION 8

Which of these possible problems does a nearly-full ProxySG disk indicate? (Select all that apply)

A. This ProxySG should be upgraded to a more powerful model.

B. One or more additional ProxySG appliances should be deployed in this network.

C. Caching parameters are improperly set in the Management Console.

D. None; this is a normal condition.

Correct Answer: BC

QUESTION 9

If multiple users from different IP addresses have been authenticated as guest users into the same authenti- cation realm, how can you distinguish among them in the Management Console display of currently logged-in users?

A. The ProxySG automatically appends a sequential number to each successive guest login from a dif- ferent IP address.

B. When creating policy to authenticate guest users, use variable substitutions such as IP addresses to form part of the guest username.

C. You cannot do this.

Correct Answer: B

QUESTION 10

Which Blue Coat product is best suited for simultaneously administering a large number of ProxySG appli- ances?

A. ProxyAV

B. PacketShaper

C. Reporter

D. Director

Correct Answer: D

QUESTION 11

Which client deployment methods support the 407 Proxy Authentication Required response code? (Choose all that apply)

(a)

 Proxy Auto Configuration files

(b)

 WCCP

(c)

 Proxy settings in browser

(d)

 Inline Bridging

A.

a and b only

B.

b and c only

C.

c and d only

D.

a and c only

E.

All of the above

Correct Answer: D

QUESTION 12

Which of the following are true when enabling the early intercept attribute for a proxy service? (Choose all that apply)

(a)

 It is automatically enabled when the detect protocol attribute is enabled.

(b)

 The ProxySG completes the three-way TCP handshake with the client before establishing a connection to the upstream server.

(c)

 It can be used with any protocol.

A.

a and c only

B.

a and b only

C.

c only

D.

All of the above

Correct Answer: A
