Vendor:IBM

Exam Code:C4090-452

Exam Name:IBM Storwize V7000 Technical Solutions V2

Version: Demo

QUESTION 1

Describe the key competitive advantage of IBM integrated Real-time Compression (RtC) over EMC and HP compression technology.

A. Operates on active primary data

B. Achieves up to 40% better compression rates

C. Provides up to 200% performance improvement

D. Supports faster and more efficient data copies for online backup

Correct Answer: A

QUESTION 2

A customer has asked the technical specialist for the recommended number of paths to a volume on their newly implemented Storwize V7000.

What is the recommended best practice?

A. 2

B. 4

C. 6

D. 8

Correct Answer: B

QUESTION 3

What do the terms `expansion canister\\' and `expansion enclosure\\' refer to relative to the Storwize V7000 or Storwize V7000 Unified?

A. Expansion canister is the hardware unit that includes the node canister and drives. Expansion enclosure is a hardware unit that includes expansion canisters and batteries.

B. Expansion canister contains the node canisters. Expansion enclosure is a hardware unit that includes the chassis, node canisters, drives, and power sources that include batteries.

C. Expansion canister is a hardware unit that includes expansion nodes, drives, and batteries. Expansion enclosure is the hardware unit that includes the SAS interface hardware that enables the canister to use the drives.

D. Expansion canister is the hardware unit that includes the SAS interface hardware that enables the node to use the drives. Expansion enclosure is a hardware unit that includes expansion canisters, drives, and power sources that do not include batteries.

Correct Answer: D

QUESTION 4

A customer has asked the technical specialist about security for five hosts connecting via iSCSI to a newly installed Storwize V7000 system.

Which of the following items should the specialist suggest to the customer?

A. Port-based zoning

B. Direct connections

C. Virtual LAN (VLAN)

D. Storwize V7000 port masking

Correct Answer: C

QUESTION 5

What is the preferred replication method that could achieve best application performance with reduced network requirements host performance that is independent of the replication, and RPO higher (with default of 10 minutes)?

A. Metro Mirror

B. Global Mirror

C. Global Mirror with Change Volumes

D. SAN Volume Controller Split cluster

Correct Answer: C

QUESTION 6

A customer is looking for a cost effective solution that will centralize the management of their existing IBM DS5100 with 120 TB of storage, and EMC CX4-120 with 50 TB storage. The customer also wants the ability to add capacity to the solution as needed. Which IBM solution best fits the customer requirements?

A. DS5020

B. StorwizeV7000

C. N series Gateway

D. SAN Volume Controller

Correct Answer: B

QUESTION 7

In the Storwize V7000.,what is the Node Canister?

A. A group of 5 drives

B. The controller ERU

C. The power supply/fan ERU

D. Disk expansion interconnect ERU

Correct Answer: B

QUESTION 8

What cluster system layer is configured when the IBM Storwize V7000 will be used with one or more SAN Volume Controllers as a Remote Copy partner?

A. Storage layer

B. Replication layer

C. Remote Mirrorlayer

D. Virtualization layer

Correct Answer: B

QUESTION 9

Which configuration is supported with asynchronous replication in Storwize V7000 Unified environments?

A. One file set to one file set target

B. One filesystem to one filesystem target

C. One filesystem to multiple filesystem targets

D. One Storwize V7000 Unified filesystem to multiple Storwize V7000 targets

Correct Answer: B

QUESTION 10

A customer has asked the technical specialist what host information is needed to allocate storage on a Storwize V7000 SCSI attached system.

What information should the technical specialist request?

A. IQN

B. WWNN

C. WWPN

D. IP address

Correct Answer: A

QUESTION 11

A customer asks if the IBM Storwize V7000 can provide the ability to use CIES. How should the technical specialist respond?

A. iSCSI modules can be ordered for the IBM Storwize V7000 to get CIFS.

B. All models of the IBM Storwize V7000 only present Fibre Channel volumes.

C. The system must be upgraded to the Storwize V7000 Unified to provide the CIFS functionality.

D. The IBM Storwize V7000 can provide CIFS if eight or more expansions trays are ordered with the controllers.

Correct Answer: C

QUESTION 12

A customer wants to use the Real-time Compression feature in a SAN Volume Controller and Storwize V7000 environment.

Which tool helps determine the capacity savings using this feature?

A. Disk Magic

B. Capacity Magic

C. Comprestimator

D. Storage Tier Advisory Tool

Correct Answer: C
