QUESTION 1

Which of the following conditions must be satisfied before the HTTP client authentication mechanism is used?

Each correct answer represents a complete solution. Choose all that apply.

- A. The client must have a valid public key certificate.
- B. The SSL support must be configured for the server.
- C. It must create the error and login form pages.
- D. The Base64 encoding must be used for sending user names and passwords over the Internet.

Correct Answer: AB

QUESTION 2

Mark works as a Programmer for InfoTech Inc. He develops the following code snippet.

```
import java.util.*;

public class DemoSet{

public static void main(String[] args){

TreeSet ts = new TreeSet();

ts.add("Sunday");

ts.add("Friday");

ts.add("Wednesday");

ts.add("Sunday");

ts.add("Monday");

Iterator it = ts.iterator();

while(it.hasNext()){

System.out.print(it.next() + " ");

}

}

}
```

What will be the output when he tries to execute the given code snippet?

- A. Wednesday Sunday Monday Friday
- B. An exception will be thrown at runtime.
- C. Friday Monday Sunday Wednesday
- D. Sunday Monday Wednesday Friday

Correct Answer: C

QUESTION 3

Which of the following methods of the EJBContext interface can be called by both the BMT and CMT beans?

Each correct answer represents a complete solution. Choose all that apply.

- A. getCallerPrincipal()
- B. getRollbackOnly()
- C. getUserTransaction()
- D. isCallerInRole()

Correct Answer: AD

QUESTION 4

Fill in the _____ blank with the required interface name to complete the statement below.

An object of the interface is provided by the container to invoke the next filter in a chain of filters.

Correct Answer: Answer: FilterChain

QUESTION 5

Which of the following statements about a JAR file are true? Each correct answer represents a complete solution. Choose all that apply.

- A. It cannot be accessed through a class path, nor they can be used by java and javac.
- B. It is used to compress and archive data.
- C. It can be moved from one computer to another.
- D. It is created by using the jar command.

Correct Answer: BCD

QUESTION 6

You have written the following code snippet.

1.

```
public class Read {
```

2.

```
protected int ReadText(int x) { return 0; }
```

3.

```
}
```

4.

```
class Text extends Read {
```

5.

```
/*insert code here*/
```

6.

```
}
```

Which of the following methods, inserted independently at line 5, will compile? Each correct answer represents a complete solution. Choose all that apply.

- A. `private int ReadText(long x) { return 0; }`
- B. `protected long ReadText(int x, int y) { return 0; }`
- C. `protected long ReadText(long x) { return 0; }`
- D. `protected int ReadText(long x) { return 0; }`
- E. `private int ReadText(int x) { return 0; }`
- F. `public int ReadText(int x) { return 0; }`
- G. `protected long ReadText(int x) { return 0; }`

Correct Answer: ABCDF

QUESTION 7

Which of the following authentication flag values will force authentication to continue to proceed down the LoginModule list, irrespective of whether the LoginModule succeeds or fails?

Each correct answer represents a complete solution. Choose all that apply.

- A. Optional
- B. Composite
- C. Requisite
- D. Required

Correct Answer: AD

QUESTION 8

Which of the following statements are true?

Each correct answer represents a complete solution. Choose all that apply.

- A. An inner class cannot be defined as private.
- B. An inner class cannot be defined as protected.
- C. An inner class can be defined as private.
- D. An inner class can extend another class.

Correct Answer: CD
